Download link for the latest NT8 versions of Orderflows Pulse:

http://www.orderflows.com/dl/NT8/OrderflowsPulse.zip

Watch this video for how to get the Orderflows Pulse properly licensed and working:

https://vimeo.com/315909130

You Can Download the Pulse user guide:

http://www.orderflows.com/dl/NT8/ThePulseUserGuide.pdf

Over the next several pages you will learn how to enter your license token and check that you have your data set up correctly.

Here are the instructions for using the NT8 Version of Orderflows Pulse:

After installing the indicator, please restart NinjaTrader.

After installing this tool, you will need to enter in the license token in the indicator's property setting.

ndicators		? 🔀							
Available i 🗘	Properties								
The_Indicator_Store	▼ License	Ē							
Delta Candles	License token

	Signal Box High offset In Ti	0.5							
	Signal Box Low Offset In Ti	-0.5							
	Signal Box Opacity (0% - 1	75							
	Signal Box Width In Bars (0	5							
	Signal Mark Displacement	2							
	▼ Data Series								
add remove up down		preset							
	ОК	Cancel Apply							

Your license token will come to you via email and look like this:

License created

• info@licensr.cloud To: mvaltos@yahoo.com

License created

Customer: mvaltos@Yahoo.com Products: OrderflowsPulse License token: 1b1b9acfaca646daafee7a114241

Copyright © 2018, 2019 - licensr.cloud

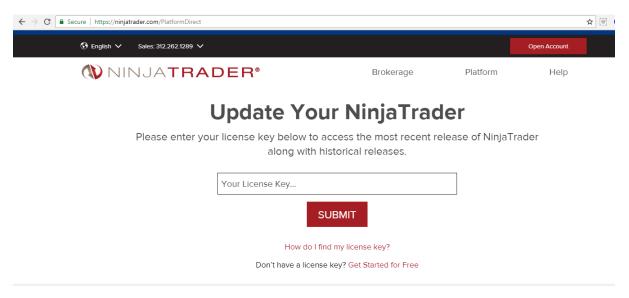

Just copy and paste the numbers and letters (not the . at the end) into the box in the setting and click Apply, then OK.

Please be sure that you are running the latest version of NinjaTrader 8. The software is designed to work best with the most recent version of NinjaTrader 8, which currently is NinjaTrader 8 version 8.0.15.1

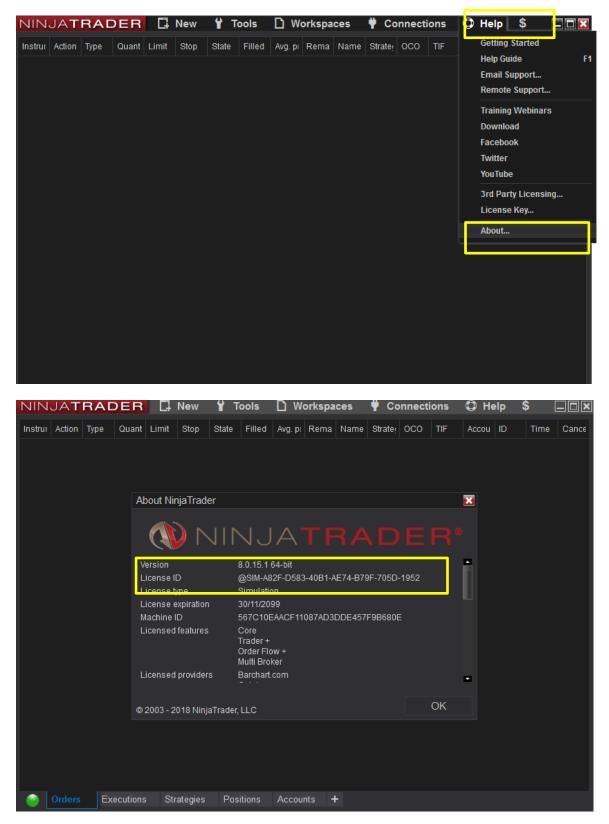

To upgrade to the latest version of NinjaTrader 8 go to:

<u>http://www.ninjatrader.com/PlatformDirect</u> and follow the instructions on that page which is just entering your NinjaTrader License Key.

You do not need to send me your machine ID or license key.

If you are not sure what version of NinjaTrader 8 you are running or what your NinjaTrader License ID is that you would enter into the box to get the latest version of NinjaTrader 8, you can check it by going to the Control Panel and clicking on Help ---> About.

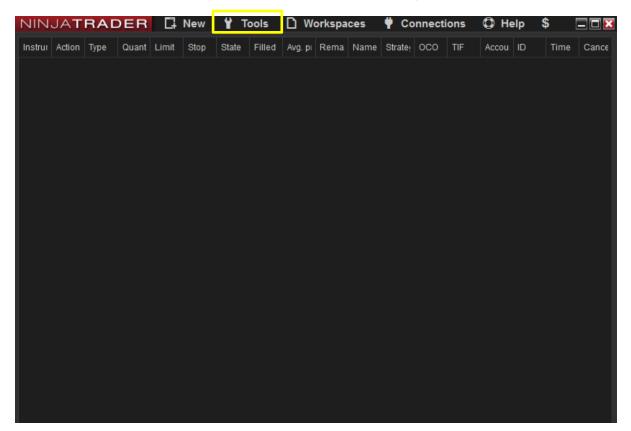

Also, it is very important that you have the tick replay setting enabled.

If you don't know if you have it enabled, you can check by going to the Control Panel and clicking on Tools ---> Options ---> Market Data then under the properties on the right side of the window, making sure "Show Tick Replay" is enabled with a tick.

If "Show Tick Replay" is not enabled, then the tools will not work properly. Your chart will be empty.

Here is how to check if you have the "Tick Replay" enabled or not.

	ОК	Cancel	Apply
Orders Executions Strategies F	Positions Accounts +		

You will know if "Show Tick Replay" is enabled when you go to open a chart and you either have the option to enable "Tick Replay" or not.

Try opening a chart and check if you have this option:

	oad template only (layout, indicators Properties	s, and style) i Default	~				
Applied	Properties						
	Properties						
CL 10-18 (8 Range)	▼ Data Series		F				
	Price based on	Last	~				
	Туре	Range	~				
	Value	8					
	Tick Replay	✓					
	 Time frame 						
	Load data based on	Days	~				
	Days to load	3					
	End date	21/08/2018	~				
	Trading hours	<use instrument="" settings=""></use>	~				
	Break at EOD						
	▼ Chart style						
	Chart style	Candlestick	~				
	Bar width	3					
	Candle body outline	Solid, 1px					
	 Candle wick 	Solid, 1px					
	Color for down bars	Red	\mathbf{v}				
	Color for up bars	LimeGreen	\mathbf{v}				
add remove		preset ra	ange				
		OK Can	cel				

Just make sure it is ticked when opening a chart.

IF YOU DO NOT ENABLE TICK REPLAY THE INDICATOR WILL NOT WORK PROPERLY.

If you try to open a chart but you don't see that box, for example, it looks like this (missing the words "Tick Replay), then you need to follow the steps I just mentioned about going to the Control Panel and clicking on Tools ---> Options ---> Market Data then under the properties on the right side of the window, making sure "Show Tick Replay" is enabled with a tick.
